fall 2009

NO MATTER

where you go, everyone is carrying their portable music/MP3 players, their mobile phones, and other portable digital devices. And along with these modern miracles comes the problem of tangled headphone wires, annoying excess hanging wire that

gets in the way, and the need for a convenient, functional wire storage solution when earbuds aren't needed.

Magneat™ solves these problems in a way no product has done before – with a convenient, brilliant headphone wire management and storage solution. It lets you adjust the headphone wire to the

desired length, minimizing the risk of tangling and relieving your ears of the weight and the motion of excess wire. What's more, Magneat keeps the wire close to your body, reducing the risk of unwillingly hooking it or inadvertently pulling the headphones out of your ears or your portable media player.

The ever so classic **fall collection**

Just

as importantly, the beauty and simplicity of the Magneat's "button/badge" design makes a statement about each user's style, fashion sense, and appreciation for classic, innovative design.

With its Scandinavian design heritage, Magneat combines fun, fashion, and must-have functionality to create an instant classic and a stylish design piece that anyone can wear with virtually

any garment for any occasion. In today's world, everyone wants to make a statement and stand out from the crowd. Whether you are at the gym, on your bike, riding the subway, or out for a night on the town,

Magneat is the new canvas for your modern lifestyle.

Somewhere over the **Rainbow**
